January 30, 2008

Bearcloud announces the opening of his new gallery The Edge of Town. The gallery is targeted to open around February 15th, 2008. It is located at Suite 3, 3150 West Hwy 89A, heading west out of Sedona, Arizona. It sits on the edge of town.

This gallery is a combination of Bearcloud's vision from the Star Nation Gallery online, and is being used to support the headquarters of the Chameleon Project.

Secondly, The Edge of Town gallery will feature art and sculpture, beautiful glasswork and telescopes of many sizes; books on space, the universe, pyramids, gardens, chameleons, and more.

Original paintings of the Chameleon Project will be displayed in the gallery. Gi'clees of the Chameleon Pyramids paintings are for sale.

Free aura readings will be available for those who listen to the presentations of the project as we seek donations to support its reality. A 3D digital tour of the Chameleon Project will be available to view.

Come and enjoy!
